Meet Donna

Owner and Founder, Donna Salyers did not have much growing up and was taught how to sew her own clothes by her grandmother at the age of 8. Landing a job at a local department store at age 14, she worked her way through high school and aspired to be a fashion designer and entrepreneur from a very young age.

Over the past 30+ years, Donna has created a global brand that is known as the originator of the faux fur revolution. The technology and designs today are unsurpassed and sold in the finest stores and boutiques. A Cinderella story resulting in saving millions of innocent animals along the way.

We invite you to join the faux fur revolution.
